DAILY EMPIRE.

OLD GRIMES

RY ALBERT O. GREEN

Old Grimes is dead—that good old man, We never shall see him more; He wore a single-breasted cost. That buttoned down before,

His heart was open as the day, His feelings all were true; His hale was some inclined to gray, He wore it in a quene.

Whene'er was heard the voice of pass, His breast with piry borned; The large round head upon his case From ivory was turned Thus ever prompt at pity's call, He knew no base design; His eyes were dark and rather small, His nose was acquiline.

He lived at peace with all mankind, In friendship he was true; His coat had pocket holes behind, His pantaloons were blue.

But poor old Grimes is now at rest Nor fears minfortune's frown; He had a double-breasted yest, The stripes ran up and down

He modest merit sought to find, And pay it its desert; He had no malice in his mind, No ruffle on his shirt.

His neighbors he did not abuse: Was sociable and gay; He were not rights and lefts for shore, But changed them every day,

His knowledge, hid from public gaze, He never brought to view; Nor made a noise town meeting days, As many people do.

Thus endisturbed by anxious cares, His peaceful moments ran ; And every body said he was A fine old Gentleman.

Intermittent Fever or Fever and Ague, Remittent Fever, Chill Fever, Dumb Ague, Periodical Headache, or Bilious Headache, and Bilious Fevers; indeed for the whole Class of Diseases originating in biliary derangement, caused by the Malaria of minamatic countries.

by the Malaria of minamatic countries.

No one reneedy is lender called for by the necessities of the American people than a sure and safe cure for Fever and Agne. Such a remedy we are now enabled to offer, with a perfect certainty that it will credicate the disease, and with a smantee, frauded on proof, that no harm contains the first protects from or prevents this disorder must be of immense service in the communities where it pravails. Freeding is better from cure, for the patient escape, the risk which he must run in violent attankage this beleful distemper. This "Curn" expels the minimatic poison of Fryan and Ague from the cystem, and prevents the development of the disease, it taken on the first approach of its premaintary avantorms. It is not only the hear remaintary avantorms. It is not only the hear remaintary avantorms. It is not only the hear remaintary was proposed in this class of complaints, but also the chapters. The large quantity we supply for a dollar brings it within the reach of every body, and in bilious districts, where Previne and Ague prevails, every body should have it and use is feely, both far care and pretection. It is hoped this price will place it within the reach of all-the poor as well as the rich. A great superiority of this remedy over any other over discovered for the speedy and certain care of lutermittents is, that it contains to Quinline or mineral, consequently it produces a quinter or mineral, consequently it produces and the constitution. Those cured by it are left as healthy as if they had never had the discase.

Disease.

So wide is the field of its usefulness, and so numerous are the cases of its cures, that almost every section of country abounds in persons publicly known, who have been restored from alarming and even desperate diseases of the lungs by its use. When once tried, its superiority over every other medicine of its kind is too apparent to eccept observation, and where its virtues are known, the public no longer hesitate what antidate to employ for the distressing and dangerous affections of the pulmonary organs that are incident to our climate. While many inferior remedies thrust upon the community have failed and been disearded, this has gained friends by every trial, conferred benefits on the afflicted they can never forget, and produced. afflicted they can never forget, and produced
